Cake Dowel Cutter
SKU: LDC33

How it Works

- Stick the self-adhesive Dowel Mounting Bracket to the centre of a LOYAL Masonite Cake Board
- Place a LOYAL Large (16mm) Cake Support Dowel into the Mounting Bracket. Tip: Measure this dowel against the height of your cake layers and cut excess off using the LOYAL Cake Dowel Cutter.
- Slide your cake layers over the large centre dowel (Optional: for extra support, place a perforated cake board between each layer).
- Crumb coat and decorate your cake as desired.
- For a tiered cake, use LOYAL Small Cake Dowels in each layer to keep your cake support vertically.
